DIVINE DICTUM

The only truth in the universe is 'Atma' (the Divine Soul, the Self, Universal Energy, Consciousness or God). That's the only reality; everything else is transitory and perishable. Innumerable changes happen within nature, but Atma always remains constant. It neither has a beginning, nor an end. It is immortal.

Atma existed before any concept of God, so it is important to love and worship it. Contemplation and meditation on Atma even for a moment, can take us towards the experience that we and Atma are One (Self-realization). Worshiping Atma is worshiping all Gods.

Atma is present in all of us, residing in our heart. The easiest and most effective way to attain Atma is to meditate in the Self. Do not look for the Self outside but meditate within to realize God. Atma is formless and without any physical properties. It is easier to see Atma with a form. This manifestation in a form is One, who is always absorbed in Atma. Constant meditation on this form in our heart will lead to Self-realization.

Atma is omnipotent, omnipresent and omniscient. It does not belong to any particular country, world view or religion. Any human being can attain Self-realization by meditating upon Atma. Jesus Christ, the Buddha, Prophet Mohammed, Sri Krishna, Lord Mahavir, Guru Nanak, Prophet Zarathustra and other saints throughout history, all attained Self-realization because they meditated on Atma constantly and became One with Atma.

The philosophy of the education holds that education is directed towards all round development of human personality, it is a process of physical, intellectual and spiritual growth. While the primary function of the school is the transmission of cultural heritage which is usually designed as intellectual training, yet at all times the school like every other educational agent is dealing with the human being as a whole. This human personality is always a unitary thing and cannot be dissected or divided. The development and training of the intellectual powers is intended to result in skill in the use of reason, but this skill is in turn to be applied to changing situations in which the child finds himself in life in the school, at home and in the community. We believe that your dynamic co-operation and loving faith will motivate us in future to fulfill the requirements of your children.

The virtual reality in the universe is the existence of “ATMA” (Divine Soul). To recognize this AMEMG, in its spiritual environment will teach them “MEDITATION” (DHYAN) which will help them to recognize and activate their inner - sense as well as to realize the importance of their existence too. We have all been busy.... Busy taking risks; busy learning. It takes a lot of energy to try new things. It is time to celebrate both their effort and the results.

The school's attachment with our parents is vital to the success of our students and school. Even though I spend a lot of time in areas where I can be with students and on rounds, inspecting the school, I can be reached with relative ease. We are partners in your children's education so please keep an active and open line of communication with all of us at AMEMG. It is our commitment to our students that we shall extend the best innovative practices in every sphere of their schooling.
